Laptop Programs

Years 7 and 8

Since its inception, Mark Oliphant College has proudly maintained a tradition of providing the latest technology to all learners from Birth to Year 12. This commitment enables students to develop the ICT capabilities required to use technology effectively and become responsible digital citizens both at and beyond school.

Chromebook loan program for years 7 and 8

Students in Years 7 and 8 have the opportunity to borrow a Chromebook from the College for use at school. Each Chromebook is issued in the student's name and stored in a trolley when not in use. To participate in this program, a signed acknowledgement of the College ICT User Agreement and a $100 deposit are required.

The ICT User Agreement outlines the responsibilities of students to care for and use the Chromebook safely while it is borrowed. The deposit serves as security for the Chromebook and may be used in accordance with the College ICT User Agreement if the device is damaged or lost.

- In cases of loss or damage due to negligence, abuse, or malicious acts, the student or their parents/carers will be responsible for covering the cost of repairs or full replacement of the device.

If the Chromebook is returned undamaged at the end of Year 7, the $100 security deposit can be "rolled over" as a security deposit for a loan Chromebook in Year 8.

If the Chromebook is returned undamaged at the end of Year 8, the $100 deposit can be "rolled over" as a payment towards a brand new Chromebook as part of the College's Chromebook co-contribution program.

Bring Your Own Device (BYOD)

The school supports students who wish to use their own laptops through the Bring Your Own Device (BYOD) program. To ensure safe and effective operation on the College network, BYOD devices must meet the specified minimum to recommended specifications. Approval requests for BYOD devices can be submitted through Student Services.

Minimum to Recommended Specifications of BYOD devices

Operating System	Storage	Memory (RAM)	Screen Size
Windows 11	256GB – 512GB	8GB – 16GB	13″ – 14″
Chromebooks	32GB – 64GB	4GB – 8GB	11″ – 13″
MacBook	128GB – 512GB	8GB – 16GB	11″ – 13″
